## Team Building Activities

*Please choose three of the following tasks*

### **SPIDERS WEB**

*Hidden in the trees is a giant web. The whole team has to pass through the web without alerting the spider. A very popular task that involves teamwork and planning, promoting the need for trust and reliance amongst the team members.*

### **NUCLEAR CHAMBER**

*Faced with a gorge, the teams have to get safely across using the equipment provided, collecting buckets full of water along the way. Once safely through the gorge the team has to safely remove the nuclear bomb from the chamber - water is a key element to complete the task. This is one of our more adventurous tasks and requires the team to use strong communication skills; delegation and evaluation are also key factors.*

### **ARTESIAN**

*The teams are faced with a restricted area that contains a virus. The aim is to manoeuvre the virus from its original setting into another area. This is a multi task challenge, it requires forward thinking and processed planning and enhances co-operation and communication between the team.*

### **ELEVATION**

*Each team member must retrieve a box from a restricted area in order to assist in solving a puzzle. This game will involve working off the ground on boxes and planks. This task will require the team to plan and be effective in communication and teamwork.*

### **HOIST THE MAST**

*Can the team get the flagpole into the centre of a restricted area, erect it and raise the flag? Strong teamwork is required to achieve this task without breaking the rules.*

For more information or to discuss your conference event with us please email:

[info@turnevents.co.uk](mailto:info@turnevents.co.uk)

## Multi Activities

### ARCHERY

*Receive a full introduction into this noble sport of kings, one of the country's oldest activities. Learn how to use re-curve bows and with some expert tuition you will soon be hitting gold!*

### CLAY PIGEON SHOOTING

*Enjoy Clay Pigeon Shooting in wonderful woodland surroundings. With a variety of targets available, such as Driven Pheasant, Springing Teal, Crossing Crow and Settling Pigeon. We use 12 and 20 bore shotguns that can be adapted to suit all guests. Staffed by professional shooting instructors, guests will receive tuition in gun handling and safety whilst learning the very satisfying and competitive sport of clay pigeon shooting.*

### POWERTURN CARS

*Capable of spinning 360° on its own axis, the Powerturn is a one or two man, two-wheel drive vehicle powered by twin engines and steered by varying the throttle or brake on either of the engines. A totally different driving discipline it can power slide round corners, do doughnuts, wheelies and can probably be manoeuvred faster than any other off road leisure vehicle in the world. Single and twin-seat vehicles are available.*
